# Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Communications Engineering Division      DATE: 8 June 1953

FROM : Chief, Communications Operations Division

SUBJECT: Portable Automatic Morse Machine

REF : A. OC-1843

B. Memorandum From Chief, FI Dated 30 April 1953 Same Subject

1. It is requested that you continue to consider the PAMM as a possible accessory to clandestine communications. Inasmuch as there are a number of shortcomings to the one prototype model which we have received, it is not considered desirable at this time to order a large number of PAMM units.

2. I shall appreciate your keeping me advised of the development of the PAMM, its unit cost in terms of various quantities, and your technical recommendations concerning the unit during development by the manufacturer. It is my understanding that the manufacturer is going to make available to you improved prototypes and also will advise you of more definitive unit costs.
